## 1000 WHEELCHAIRS IN FIRST QUARTER OF 2023

The wheelchair shop is becoming more and more efficient and is on track to build **4000** wheelchairs in 2023. This compares with only **1657** in all of 2019 and **2316** in 2021.

Distribution has been slowed by the elections, but the biggest problem is that over 600 frames are sitting in the shop awaiting money for bicycle wheels, cranks and chains, the most expensive parts of the tricycle.

Increased efficiency is great, because the need is still overwhelming, but it means more and more funds are needed for supplies.

### **SOME OF THE 600 FRAMES WAITING FOR WHEELS**

Please help us buy the bicycle parts (3 wheels, chain and crank=\$40 per set) for these finished frames at the shop, to complete them and get them distributed.
