WHEELCHAIR SHOP BUILDS 2300 TRICYCLES IN FIRST 7 MONTHS OF 2024

1549 tricycles have been given out in 12 major distributions since January, while 751 tricycles are still at the shop awaiting distribution. Because so many areas of the north have become very dangerous with the threat of bandits and kidnappers, this has seriously interfered with scheduling presentations.

Ayuba has linked up with the Nigerian Air Force for one distribution and the Officers Wives Association for another, so he is hoping to get the Air Force to provide security for more distributions.
