March 2025

820 WHEELCHAIRS DELIVERED IN 2025

Through March 15, 820 wheelchairs have been distributed this year, making a total of 36,906 given from the beginning.

100 WHEELCHAIRS IN FAR NORTH

On Feb. 23rd, Ayuba and Sandra Yilgwan, our photographer, gave out 100 wheelchairs in Kazaure, Jigawa State, in the dangerous far north. Ayuba arranged this with Mohammed Muktar, a National Assembly member and a member of the House Committee on Persons with Disabilities. This is an important result of Ayuba's new position in the federal government and many more are planned.

On Jan.12th, Sandra travelled 14 hours by public transport (where you buy a seat in a vehicle) to Adawama and Borno States in dangerous Boko Haram territory to give out 40 wheelchairs and 30 crutches to members of the persecuted Church of the Brethren.

On Feb 12 she travelled 24 hours by public transport to give out 100 wheelchairs in Ebonyi State, far to the south.

On March 1st, Diamond Chidozie, our Acting Director and Jesse Kpanto, our storekeeper, gave out 70 wheelchairs at Lafia, Nasarawa State. Then on March 15, they gave out 100 wheelchairs at Akwanga, also in Nasarawa.

TRANSFORM A LIFE FOR \$150

There are still tens of thousands of Nigerian polio survivors who spend their lives crawling on the ground. Most are hidden away in their homes. No one knows about them except their family and often they are ashamed.

You can transform a life and give them mobility for \$150. Send your tax-deductible gift to 1542 Palm Ave. SW, Seattle WA 98116 or give online at www.WheelchairsforNigeria.org.

Our account is very low right now, so we thank you in advance for your generous gift.

Ron Rice, founder of Wheelchairs for Nigeria, is finally in recovery mode after the successful removal of his horrible kidney stone on March 3rd. It caused 2 1/2 months of serious and sometimes critical illness, with 3 hospitalizations, continual infections and other complications. He lost all his muscle mass and is just skin and bones. He is now eating everything in sight and has already regained 9 lbs. Thanks for your prayers.
